ABOUT  
ALL-FILTERS, INC.  
2012-2013

Welcome to ALL-FILTERS, INC. 2012-2013 catalog. Since we began manufacturing filters over thirty years ago, our main focus has remained the same, quality. With this in mind, ALL-FILTERS, INC. is proud to present to you our line of range hood, heating/ventilation, and air-conditioning filters.

Over the years ALL-FILTERS, INC. has seen our business grow, but never diversified from its roots of range hood filters. With this filter as our beginning, we have expanded into a full line of aluminum filters for commercial and industrial market serving the heating, ventilation and air-conditioning industry. Through all of these changes we still manufacture in the United States and bring quality, affordable product to you. Please take the time to review our catalog and feel free to contact ALL-FILTERS, INC. with any questions you might have. In addition, we would like to thank you for your past loyalty and support, we look forward to moving ahead.

UL class II certified.

## RANGE HOOD FILTERS

### Construction:

**Aluminum mesh filter** - A heavy gage concave shaped frame with retaining legs that securely grips the media and makes a rigid and durable design. The media is ¼" thick made of multi-layered, slit and expanded sheets of aluminum which are staggered to form thousands of effective grease holding baffles.

**Aluminum mesh & charcoal filter** - A heavy gage concave shaped frame with retaining legs that securely grips the media and makes a rigid and durable design. The aluminum mesh media is made of multi-layered, slit and expanded sheets of aluminum which are staggered to form thousands of effective grease holding baffles. The charcoal media is bonded to the aluminum media reducing cooking and other odors.

**Charcoal filter** - A heavy gage concave shaped frame with retaining legs that securely grips the media and makes a rigid and durable design. The media is ¼" thick made of charcoal media sandwiched between two sheets of expanded aluminum reducing cooking and other odors.

PERFORMANCE

**“EASY TO WASH”  
ECONOMY HVAC AIR FILTERS  
FOR RESIDENTIAL & COMMERCIAL  
HEATING & COOLING APPLICATIONS**

These all aluminum filters are lightweight, economical and are designed to provide years of high efficiency filtration. They are washable, reusable and can replace standard disposable filters. By spraying on a filter adhesive, the efficiency can be maintained and cleaning made easier.

**Construction:** A heavy gage concave shaped frame with retaining legs that securely grips the media and makes a rigid and durable design. The media is made of multi-layered, slit and expanded sheets of aluminum which are staggered to form thousands of effective dust holding baffles. These filters trap dust and odor bearing particles.
